To Prohibit Lobbying at National Capital.

Mr. Lamar last week introduced the following bill, which was referred to the Committee on the Judiciary and or-

dered to be printed:

Be it enacted by the Senate and
House of Representatives of the United of America in Congress assembled, That all persons employed for a pecuniary consideration to act as legislative counsel or agent in relation to any matter pending or sought to be brought before Congress shall, upon his arrival at the national capital, register his name with the Secretary of the Senate and Clerk of the House of Representatives, stating in writing at the time of registration what measures then before the National Congress he is interested in as legislative counsel or agent and by whom employed. When such person shall so register, it shall be the duty of the Secretary of the Senate and Clerk of the House of Representatives to notify the chairman of the committee to which such measure have been referred of the registration of said person, together with his written statement of employment. For the purposes of such registration and to preserve a copy of the statements registered, the Secretary of fence, except rail, with paint.

Why Tamely Submit?

Editor True Democrat:

Why do the people of Tallahassee continue to submit tamely to the outrageous impositions of an alien gas company, which furnishes, at its pleasure, a commodity varying in nature from normal quality to zero, at a price which never varies, and which, according to contemporary experience in other cities, cannot possibly cost over 50 per cent. of the price charged to consumers?

Your attention is called to page 308, section 510, of the General Statutes, relative to Taxation and Finance, which reads that between January 1st and April 1st of each year, is the time for you to fill out and hand in to the Tax Assessor, your Tax Returns for the current year. I will gladly furnish you with proper blanks for this purpose on application.

In cases where you have bought or gold real estates. consumers?

Consider the recent experiences of

In New York, the Consolidated Gas Company, after declaring for years fat dividends on a gas rate of \$1 per thousand, grew so great that it decided to increase its capital stock from nine millions to one hundred millions, and divide most of the resulting cash.

The land set out on the tax roll,

Please do not delay this matter for on April 1st, I must begin writing the Tax Roll for 1907, and it will be too late after that date to make any changes that you may desire for said year.

Tax Assessor, Leon county among its stockholders instead of increasing the capacity and efficiency of plants, the value of which aggregated only about one-third of its capital stock. Invesitgation and litigation ensued, during which the fact was demsued, during which the fact was demonstrated that the company could make gas at a cost of only 61 cents per thousand, and the representatives of the people expect the result of the litigation to be a rate of 80 cents. Tallahasseeans pay \$2.50 for gas and air!

In Chicago, the People's Gaslight & Coke Co., a monopoly, after litigation which occurred about twelve years ago reduced the price \$1.25 to \$1. A year ago the consumers again insisted upon a further reduction, and the company,

a further reduction, and the company, wisely enough, as the result of "friendly negotiation," agreed to a reduction to 85 cents. If Chicago people can buy gas for 85 cents, why should Tallahas-see people pay \$2.50?

In Indianapolis, incensed by the impositions of a monopoly, the people organized an opposition company, which has just been reorganized with a guaranteed rate of 60 cents, as against 90 cents charged by the monopoly. Isn't this a good time for the patrons of the gas company to take some steps.

of the gas company to take some steps for adequate relief? A CITIZEN.
